SERVICE CHANGES FOR SALT SPRING ISLAND TRANSIT SYSTEM

SALT SPRING ISLAND, B.C. – On Wednesday, June 30, 2010, service levels in the Salt Spring Island Transit System will increase to coincide with the summer ferry schedule.

The increase in frequency and the schedule adjustments will help accommodate local and tourist travel. Other minor schedule changes can be found in the Summer Rider's Guide and at www.bctransit.com.

Funding of the local transit system is cost-shared between the Capital Regional District and BC Transit.

For routes, schedules and general inquiries, please call the local BC Transit operator at (250) 538-4282 or visit www.bctransit.com.
